Discover a new way to work that puts your well-being first. Our Gio Height-Adjustable Desks are more than just furniture; they're a statement of your commitment to a healthier lifestyle. Say goodbye to the discomfort of sitting for extended periods and embrace the freedom of effortless height adjustment. Whether you're tackling a project, attending virtual meetings, or simply need a change of pace, Gio desks enable you to seamlessly switch between sitting and standing with a touch of a button. This dynamic movement keeps your muscles engaged, blood flowing, and mind focused. Unlock your full potential by revolutionizing your workspace ergonomics.

Imagine a workday where you're not confined to a static position. Gio Height-Adjustable Desks empower you to alternate between sitting and standing, invigorating your body and mind. Studies show that varying your posture can enhance focus, creativity, and overall vitality. Experience the difference as you effortlessly transition between tasks, enjoying improved concentration and energy levels. The ability to stand up when inspiration strikes or sit down for a concentrated session means you're in control of your work environment like never before. Elevate your productivity and feel the positive impact on your well-being with Gio.

Gio offers a range of colors and sizes, ensuring there's a perfect fit for your unique space and style. With customizable options, you're not just purchasing a desk; you're investing in a tailored work experience. Choose a color that complements your office decor and a size that suits your workflow. Our height-adjustable desks are designed to adapt to your needs, promoting optimal alignment and reducing strain on your body. Whether you have a cozy home office or a bustling corporate environment, Gio desks seamlessly integrate into your workspace, making every moment of your workday count.

Not all electric workstations are created equal.

**LINAK®**   
WE IMPROVE YOUR LIFE

LINAK® produces electric linear actuator solutions to create smooth movement in a variety of applications. From healthcare to agriculture, comfort furniture, office interiors, or industrial automation – the options are endless.

PIEZO™ Anti-Collision™ is a hardware-based sensor that reacts to direct obstruction when your office desk is adjusted either up or down. It thereby safeguards your desk from material damage, should it encounter a solid object.

OPTIONAL Desk Control™ App Connect your Desk Panel DPG with your iOS or Android mobile device, or to your desktop PC. Auto-connect, receive motivational notifications, and have statistics with an overview to help utilise the office desk's adjustment function more actively – and ultimately improve work habits.

Whether you're in need of a single desk or a bank of workstations, our versatile Gio range seamlessly blends with our other static desk collections in terms of finish. Maintain consistency across your workplace with matching aesthetics that exude professionalism and cohesion. For individual desks, we offer the option to add castors to the feet, allowing flexibility within a space. Additionally, our back-to-back desks come with single-piece tops, transforming into sit/stand meeting tables, enhancing collaboration and adaptability. The future is flexible, adapting to your ever-changing spaces and fast-paced business growth.
